

WELCOME

Fiberglass Doors

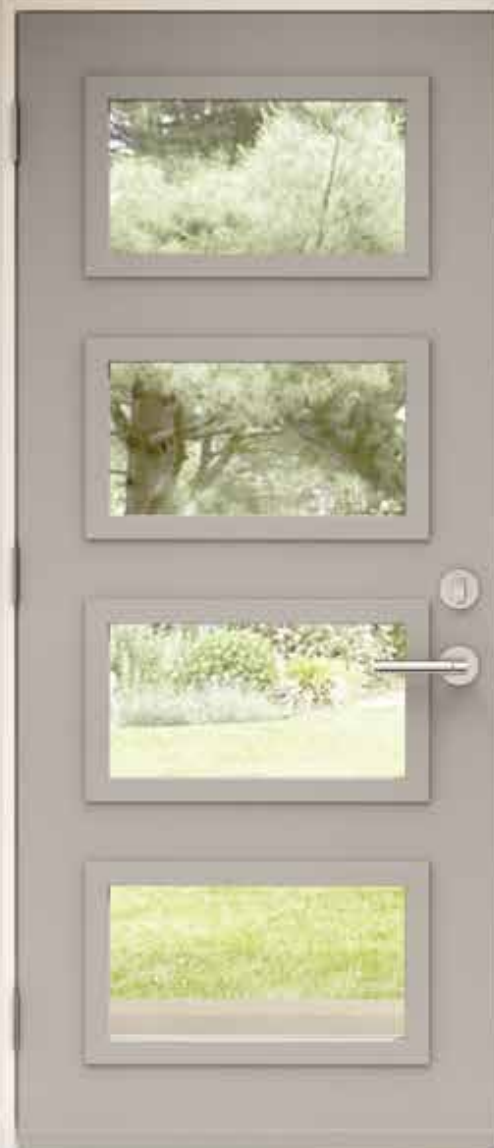

Fiberglass composite doors are quite durable and virtually maintenance-free. When exposed to harsh weather conditions, a fiberglass door is a smart choice. These doors imitate the look of wood and can be stained to match most popular wood options.

Specially engineered fiberglass door facings provide maximum protection and durability.

Features

- All fiberglass doors are filled with HCFC free polyurethane foam insulation, offering at least seven times the insulating properties than wood doors
- Our discrete door skins are made of a high impact, compression molded fiberglass; in addition to being corrosion free, it also resists warping, splits, bowing and cracking
- Can be customized to your size selection
- Low-maintenance material
- Composite frame construction
- Black Sill Standard
- 6 5/8 Jamb Standard
- Door lite units are full 1" insulated glass, with tempered glass for maximum safety will not buckle
- Real wood like finishing
- Customizable to most door glass sizes and styles
- Authentic wood grain texture replicates an oak or mahogany finish
- Each fiberglass door comes with reinforced lock block to support your hardware, providing strength and security
- Multi-point locking system is recommended on every fiberglass system

Door Styles

Fiberglass Doors

Smooth Fiberglass

A complete line of contemporary styles and designs are available in our Smooth Fiberglass offerings. Smooth Fiberglass doors provide the look of a traditional painted wood door with the added benefits of energy efficiency and a no-dent, low-maintenance surface. A wide array of smooth panel designs are ready to paint or stain and can be enhanced with various glass types.

30" slab is only available in Flush style and 79" height

*For white color add paint upcharge (original door not white)
